

FAST TRAK™

ENERGY-PLUS™ AND POWERLINE™

ENERGY-PLUS™ and POWERLINE™ FAST TRAK™

Batteries by HAWKER® are Designed for Fast Charging.

FAST TRAK™ batteries are specifically designed for use with most rapid chargers. HAWKER®'s FAST TRAK™ batteries utilize several specialized components to accommodate the higher currents for rapid charging.

SPECIALIZED COMPONENTS

- Double-thick, inter-cell connectors for better current distribution. FAST TRAK™ connectors are the thickest in the industry.
- Dual heavy-duty 2/0 or 4/0 cables and a SBX 350 amp connector that ensure your FAST TRAK™ batteries are equipped to handle the higher current levels.
- An adapter cable to join the dual cables into a single cable to connect to your truck. (Adapter cables come standard in 36" lengths for Class III trucks and 90" for Class I and II trucks, unless otherwise specified.)

ENERGY-PLUS™ and POWERLINE™ FAST TRAK™ batteries have a three (3) year limited warranty when properly applied, maintained, and used on an approved rapid charger.

Check with your local HAWKER® Representative for approved rapid chargers, or call **1-877-7HAWKER**.
