

HAWKER FLEX® Li3

The Power Behind Your Process

The HAWKER FLEX® Li3 battery is the premium lithium-ion offering to power your material handling vehicles. Built to the highest safety, design, and manufacturing standards, the HAWKER FLEX® Li3 is offered in multiple sizes and configurations. This ensures it is scalable to meet your ongoing and future power needs. Plus, it's integrated with innovative battery management technology to deliver intelligent, flexible power that is not only reliable but increases productivity and efficiency while reducing overall costs.

HAWKER FLEX® Li3 Motive Power Benefits:

- Highest quality lithium technology and support from the world's largest industrial battery manufacturer.
- Designed to meet CE and UL standards. (UL2580 & the new EN 1175:2020)
- Battery Management System (BMS) designed using stringent Automotive Functional Safety Standard ISO 26262:2011 meeting Automotive Safety Integrity Level C (ASIL C).
- Highest quality cells negating the need for active balancing.
- Modular design, enabling scalability for additional capacity to meet future power demands.
- Outstanding cycle life.
- Virtually maintenance free.
- Ideal for all opportunity and fast charging applications.
- CANbus communication.
- App and cloud-based reporting.
- Comprehensive BMS to protect your asset.
- Audible and visible state of charge (SoC) status via the HAWKER® ABI (Advanced Battery Interface).
- Laser welded cells and rugged construction.
- Minimal downtime with optimized plug-and-play charging.
